Agile Team Charter

1. Team Purpose & Vision

Why do we exist as a team? We exist to design and deliver a viable community-focused business solution that addresses the critical sanitation crisis in Khayelitsha, Cape town.

Team Mission:

- We are solving the problem of frequent sewage pipe bursts and blocked drains in Khayelitsha townships. These failures leave residents – including households, schools, and small businesses-without clean water for cooking, drinking and hygiene, sometimes for multiple days at a time. Our solution serves the residents of Khayelitsha and the surrounding municipality.

Success Definition:

We will know we are successful when:

- Our business idea is clearly defined, researched, and supported by community survey data
- The value proposition addresses the real problem experienced by Khayelitsha residents
- All team members have contributed to their assigned roles and deliverables
- The final report and presentation are submitted on time and meet the assignment rubric
- Our proposed service demonstrates a credible path to reducing sewage incidents and improving sanitation

Product / Service

We are responsible for delivering a comprehensive community business proposal for a Sewage Repair & Monitoring service in Khayelitsha. This includes community research and surveys, a defines business model, a value proposition, and a professional presentation of findings.

3. Ways of Working

How we work together day to day

3.1 Agile Framework

- ☑ Kanban – Trello tool

3.2 Ceremonies

Ceremony	Frequency	Purpose
Daily Stand-up	Daily (WhatsApp / online, 10 minutes)	Share progress, flag blockers, align on daily priorities
Planning	Weekly	Assign tasks for the week, review deadlines, clarify responsibilities.
Review / Demo	Before each submission	Review completed work together, check quality, get team sign-off.
Retrospective	End of each phase	Reflect on what worked and what to improve in our team process.

---

4. Working Agreements

Rules we agree to follow as a team

- We show up prepared and on time
- We respect timeboxes
- We give constructive feedback
- We raise blockers early
- We commit to continuous improvement

Add or remove agreements as needed.

---

5. Communication

How and when we communicate

Primary channels:

- WhatsApp Group – primary day-to-day team communication
- Google Meet / Microsoft Teams – for virtual meetings and reviews
- Google Drive – shared document storage and collaborative editing
- Email – formal communication with lecturers or external contacts

Response-time expectations:

- WhatsApp messages: respond within 3 hours during the day (08:00–20:00)
- Urgent matters (e.g. submission issues): respond within 1 hour and tag members
- Non-urgent tasks: acknowledge within 24 hours

Remote / hybrid norms:

- Cameras on during scheduled team video calls unless data is a constraint
- Update your Trello card status daily so the team knows where work stands
- All final documents to be uploaded to the shared Google Drive folder before review

---

6. Decision-Making

How decisions are made

- ☐ Consensus
- ☐ Product Owner final decision

- ☑ Team vote
- ☐ Agile Lead decides after input

Escalation path if we're stuck:

---

7. Definition of Done (DoD)

When is work really "done"?

- Content is complete, reviewed, and edited by Sinethemba (Writer/Editor)
- Design and formatting applied by Liyema (Designer) and visually checked
- Research findings verified and sourced by Talent (Researcher)
- Presentation slides reviewed and rehearsed by Muso (Presenter)
- Team Leader (Liyema) has reviewed and given final approval
- Document uploaded to the shared Google Drive folder
- Submitted to the correct platform before the deadline

---

8. Core Values & Behaviours

Value	What it looks like in our team
Respect	We listen to all ideas, honour different schedules and circumstances, and never dismiss a team member's input
Transparency	We are honest about our progress, challenges, and availability – no surprises before deadlines
Accountability	We own our role and tasks; if we cannot deliver, we communicate early and find a solution
Trust	We trust each team member to complete their role without micromanagement
Learning Mindset	We approach this project as a learning experience and share knowledge and skills freely

---

9. Risks & Constraints

What could impact our success?

Known Risks

- Team members may have conflicting academic schedules or part-time work commitments
- Internet connectivity and data access may limit participation in virtual meetings
- Survey response rates from Khayelitsha community members may be low
- Limited practical experience in business planning may affect depth of proposals

Dependencies

- Access to community surveys and responses via Google Forms
- Availability of credible sources on Khayelitsha sanitation infrastructure
- Timely feedback from the lecturer on draft submissions
- Municipality and infrastructure data to support the business case

Constraints

- Time: Academic deadlines are fixed; the project must be completed within the semester
- Budget: No financial resources – all tools used are free (Google Drive, Trello, WhatsApp, Google Meet)
- Tools: Limited to tools accessible to all team members without cost
- Skills: Team members are students with varying levels of business and technical knowledge
